

Black Women in America are **3.5x** more likely to die in childbirth than white women.

Maternal mortality is **5x** more likely if a child is born via c-section

Likelihood of a c-section **without** a doula:

33%

Likelihood of a c-section **with** a doula:

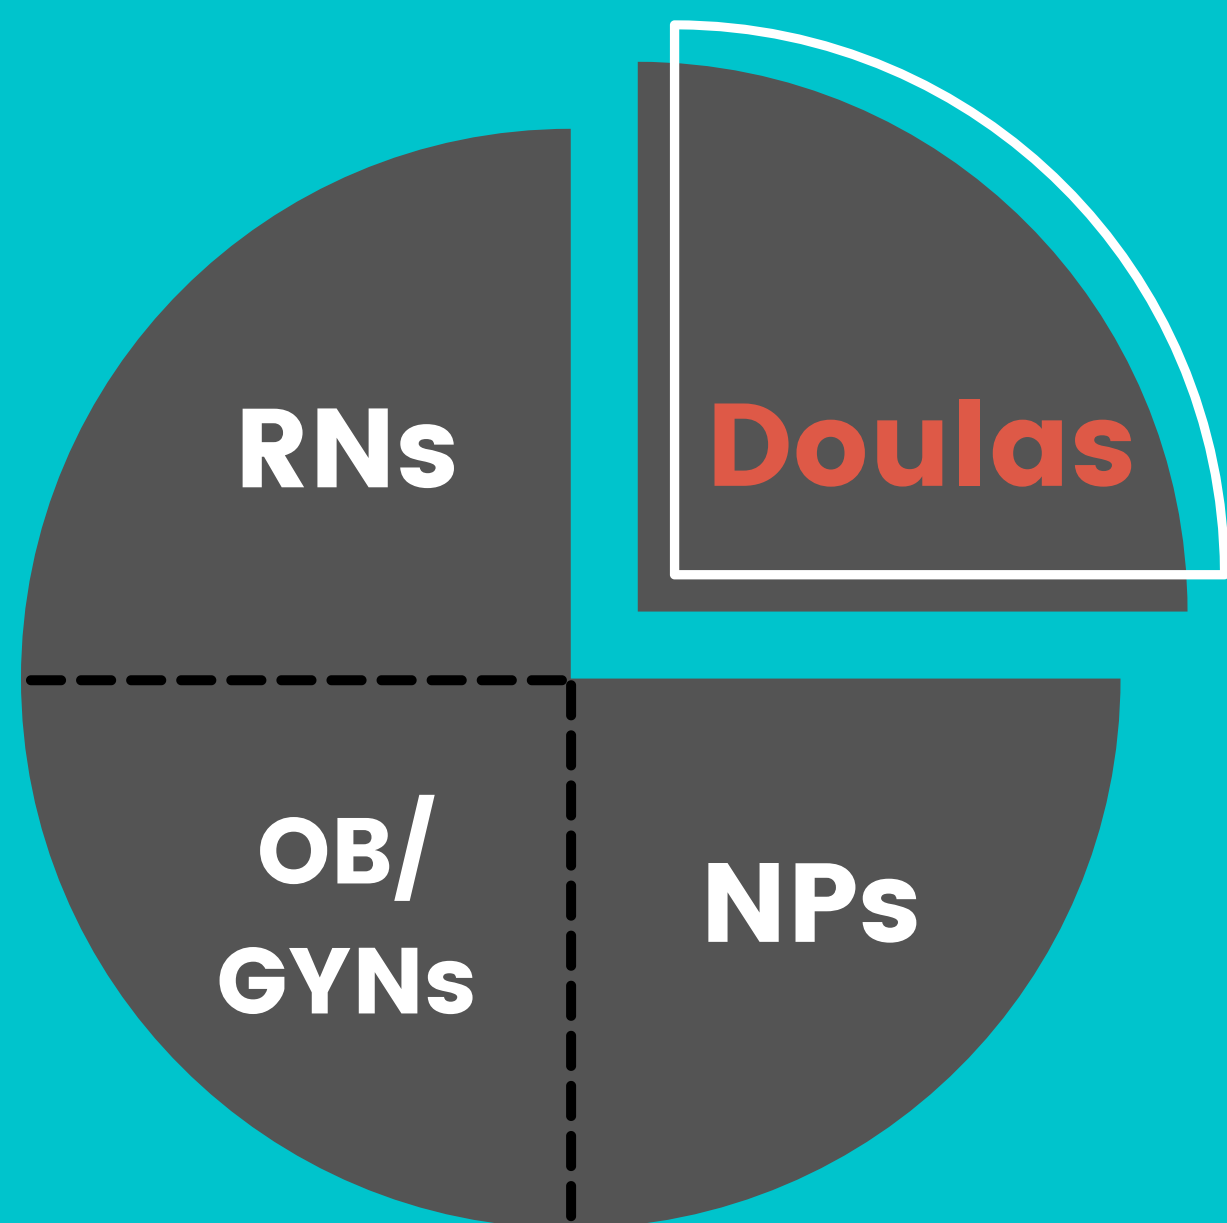

2%

The Momnibus Bill

\$247 MILLION

Potential savings per year if a qualified doula was present for all low risk, first-time births

Without doulas, the fight for health equity is incomplete and the entire health system suffers.

Qualifying doulas **must be reimbursed through Medicare & Medicaid within the **Perinatal Health Workers Act of the Momnibus Bill****
